

# Hit the outdoors

## Great read

Forget the touristy parts of SA ... one of the best ways to enjoy our lovely country is to go on a meander and discover all the fascinating little dorps in the back of beyond and their often quirkily amazing histories. Did you know there's a Boer War fort built entirely of unpolished tiger's eye on Prieska Koppie? Did you know that Kanoneiland got its name after the stock-raiding Korannas took shelter there and fashioned a huge 'gun' out of a hollowed-out quiver tree, loaded it with gunpowder and shot and fired it across the river. When the smoke cleared, six of their own men lay dead. **On Route in South Africa** is a gold mine of information about exploring this country, region by region and a fascinating stay-at-home read as well. *Sunbird*, R358.

## Brighten up

Outdoorsy dads would be thrilled to get an eco-friendly **Solar Buddy** portable solar powered lantern. It gives up to 10 hours of light and is great for caravanning, camping, hiking ... and those pesky blackouts. From R150. *Details: 072-418-8052 or www.naturallsolar.co.za*

## The tables have turned

Braais will never be the same again ... oh no, they'll be better. **Flat Dog** is the ever-loyal 'table on a stick', a mobile table top that's easy as pie to transport and assemble. It comes with three pole lengths, ideal for just about any outdoor adventure. We reckon this is the niftiest little gadget by far – just what you need to beef up dad's braai. R389. *Details: Info@flatdog.co.za*. To win one of these handy tables SMS LOCFlatdog followed by your name to 34113 by June 24. SMSs cost R1.50 each.

## Pamper ol' pops

We think Fathers' Day is the perfect excuse to stock up dad's pamper stash (because he'll never do it himself) with these brilliant **Clarins Men** goodies. **Exfoliating Cleanser** is brilliant because in one quick step skin is cleansed, purified and left feeling fresh. It's ideal for preventing any redness or irritation from shaving too. (R270). • Girls, you'll have a clean shaven man every day (woohoo!) if you get him **Shave Ease Oil**. The conditioning plant extracts like olive extract, camomile and eucalyptus soften stubble and help the razor to glide smoothly over the skin ... hello, smooth shave. (R250). • **Line-Control Balm** is an all-round youth boost for skin over 50. It's brilliant for reducing the appearance of wrinkles and firming skin, not to mention protection against harmful environmental factors. Yes, even the boys need a little help in the beauty dept. (R400).
