WHEN YOU
SUBSCRIBE

As an outdoor adventurer you have a deeper understanding of the need to preserve finite resources, protect environments and appreciate Mother Nature in her most spectacular form.

This high-quality Solar Buddy™ portable solar lantern produces hours of light and has been enthusiastically received by campers, caravanners, bush whackers, Landy lovers, off-roaders, fisher folk, yachties and anyone who's experienced unreliable electricity supply. No more expensive batteries or using unsafe candles or paraffin. Smash and splash proof. Township children have to overcome incredible odds to complete their education. Daily concerns over nourishment, transport and security and having to study at night in very poor lighting conditions, make it difficult. The vision at the Solar Buddy Foundation is to see each child have their own "Buddy", their personal light in the darkness. R5 from the sale of every Solar Buddy™ goes towards reaching this goal.

Visit www.naturallysolar.co.za or www.facebook.com/solarbuddy to see how you can be involved.
